

Oakwood Hills Animal Hospital LLC

4616 Commerce Valley Road

Eau Claire, WI 54701-8005

715-835-0112

We continue to be open to serve our patients keeping our employees and clients as safe as possible. Updates from previous protocols are attempts to minimize contact amongst humans in our facility. We now are offering curbside service for all your needs. If you are sick yourself, please send a trusted individual with your pet or to pick up medication. When you arrive for your appointment or to pick up medication, please call or text the main hospital number 715 835 0112. Your pet will be escorted into the building without you or your medication will be delivered to your vehicle. Please have your cat in a strong carrier. We will use our slip leads over your current dog leash for safety for all. All conversations necessary with the doctor will be handled over the phone.

Vaccination updates appointments are prioritized to those needing rabies first. If rabies vaccination is due, and the patient is in the building we will update other vaccinations and blood testing recommended. The Lyme vaccine we currently use does have effectiveness up to 15 months so that can be delayed for awhile. We typically do this every 12 months because of the endemic nature of this disease in our area and we want to make sure everyone has excellent protection.

For everyone, we ask you pay attention to your patient's preventative needs. Internal and external parasite protection is very important all year long, but especially now with the weather warming up and ticks out looking for food. We are waiving our normal protocol of requiring an exam within the previous 12 months to fill these prescriptions. This holds for internal parasite (heartworm included) as long as there has been continuous administration. Prescription external parasite protection can be filled at any time. These prescriptions can be filled at our hospital or you can use our online pharmacy for your pet's needs. Access this directly from www.oakwoodhillsanimalhospital.com and click/press Online Pharmacy. Clicking the picture to the left might work as well. You will be taken directly to our personalized site. Approval is done within 24 hours and shipment usually is very prompt.

Thanks to everyone for helping us deliver the care your pet deserves.
